

Cornell Cooperative Extension of Suffolk County,  
in partnership with Suffolk County Legislator Kara Hahn,  
invite you to participate in an important marine habitat restoration project!

# Marine Meadows Workshop

## Port Jefferson Village Center

June 1st 1pm-3pm  
rain or shine

Restoring our local eelgrass meadows will result in creation of habitat for many fish and shellfish species; help to protect our shorelines from erosion; and improve the overall health and productivity of our bays.

This free workshop will provide participants of all ages a chance to learn about the importance of eelgrass to our marine ecosystem, while helping CCE staff assemble eelgrass planting units for use in local restoration efforts.

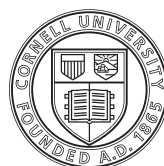

## Advance registration requested

for more information or to register for this workshop  
contact Sherryll Jones at 631-852-8660 ext. 27 or [sj497@cornell.edu](mailto:sj497@cornell.edu)  
Free door prizes for the first 20 registrants!

To learn more about the Marine Meadows Program visit [marinemeadows.org](http://marinemeadows.org) or find Marine Meadows on Facebook

Cornell Cooperative Extension is funded in part by Suffolk County through the office of the County Executive and the County Legislature. Cornell Cooperative Extension of Suffolk provides equal program and employment opportunities.
